--	--

These clinics can be scheduled to suit you and your swimmers activities, all on the one day, or spread across two or three of the weekends specified.

We have created flexibility so you can use the time best suited to your swimmer. Each clinic (Up to 5) can be on a different stroke or skill or alternatively you may wish to repeat a stroke or skill in subsequent weeks.

I will work with you to identify the stroke/skills that you wish to work on, match your swimmer with the most appropriate Open Athlete for that stroke/skill to help gain the most out of this opportunity.

To book, email me with the number of clinics, your preferred date(s) and strokes/skills to be covered at paul@kirbyswim.com.au I will then schedule and confirm your placement.
